

Chapter 6: Vision

Please choose and complete **3** of the following activities in class on **1 November**. You will do a minicontract reflection for all of the in-class sensation/perception labs by **7 November**. Check the box next to the activities you choose AND evaluate your process and mastery of each activity after you have completed it. Please feel free to do as many activities as you can; you are only required to write up three.

Process

5=It went smoothly; I knew exactly what to do

4=One thing confused me, but I figured it out

3=Ultimately got it, but it needed some explaining

2=Did I do it right?

1=Wait, what was I supposed to do?

Mastery

5 = I can teach it!

4 = I am confident with my knowledge (I can explain it).

3 = I still have some questions...

2 = I'm a little lost... help!

1 = Wait, what?

Vision Labs

Done	Process 5-1	Mastery 5-1	Activity
<input type="radio"/>			Vocab Work – quizlet, textbook flash cards, study group vocab sheet, etc.
<input type="radio"/>			Color cards -threshold activity (lab experiment)
<input type="radio"/>			Blind spot activity (lab experiment)
<input type="radio"/>			Disney subliminal messages YouTube video (http://youtu.be/5I2SJNdt0Xs)
<input type="radio"/>			iPad App - Exploratorium Color Uncovered
<input type="radio"/>			iPad App - Optical Illusions
<input type="radio"/>			Depth perception/drop activity (lab experiment)
<input type="radio"/>			Seeing in the dark (lab experiment)
<input type="radio"/>			Perception goggles (lab experiment)
<input type="radio"/>			Cow Eye Dissection Video (NOT for the timid!) (http://youtu.be/uUiXJgimjnY)
<input type="radio"/>			Rods and Cones - red and green markers (lab experiment)
<input type="radio"/>			Pulfrich Pendulum (lab experiment)
<input type="radio"/>			Seek out a classmate for collaboration on a topic with which you are struggling (<i>use T-Chart</i>)
