Station 8

Quotation & Hyphens, Colons, Semicolons station

Complete comma errors page.

Station 9

Capitalization station

Complete capitalization errors page.

Station 10

Passive and Active Voice

Complete agreement grammar page.

Teacher notes – these stations need to be set up before class begins, or possibly the first few minutes of class. Students will be given a separate handout to fill in responses and an answer key at the culmination of the activity to check their results. It should be a “shotgun” start with each group beginning at a different location. Numbers are solely for organizational purposes. No one should start at Station 4. There should be no more than 9 groups. 7 groups is best, having stations 2,3,4 empty at start.
