

Trampoline Opener

A girl jumps off a ledge onto a trampoline. What kind(s) of energy does she have

- a) on the ledge waiting to jump.
- b) half way down.
- c) just before she hits the trampoline.
- d) when she's dropped into the trampoline as far as she can go. (Be careful! There's something sneaky going on here.)
- e) when she's on her way back up just after bouncing up from the trampoline.
